Searco News Update

01 March 2011

Welcome to 2011 from all of us at Searco Distributors Ltd

It's March already, Christmas and the holidays seem like a distant memory. I trust you well rested.

The year that was 2010 was a turbulent and difficult one for the majority of us for different reasons. I'm sure most of you are glad to see the end of it.

However as you are all aware, the shock of 2010 earthquakes have again hit us here in Christchurch. Searco Distributors Ltd are fortunate to be situated outside the CBD, and hence the building has held up very well. Although we have a lot of cleaning up to do, I am very pleased to say that staff and family are well and we are operational.

There may be some delays on freight, but we are working through these with couriers.

So it's business as usual at Searco Distributors and we are working hard at bringing you the best innovating solutions for your business needs. As you will see we are pleased to again announce a range of new products and improvements to current lines.

This affirms us as Abrasive Specialists, providing expert solutions. How many others can claim this. You might say we are "cutting edge" (sorry for the pun).

To a prosperous 2011

From all the Team

Dennis, Jason, Nathan, Mark, Peter, Janette, Chris & Tony

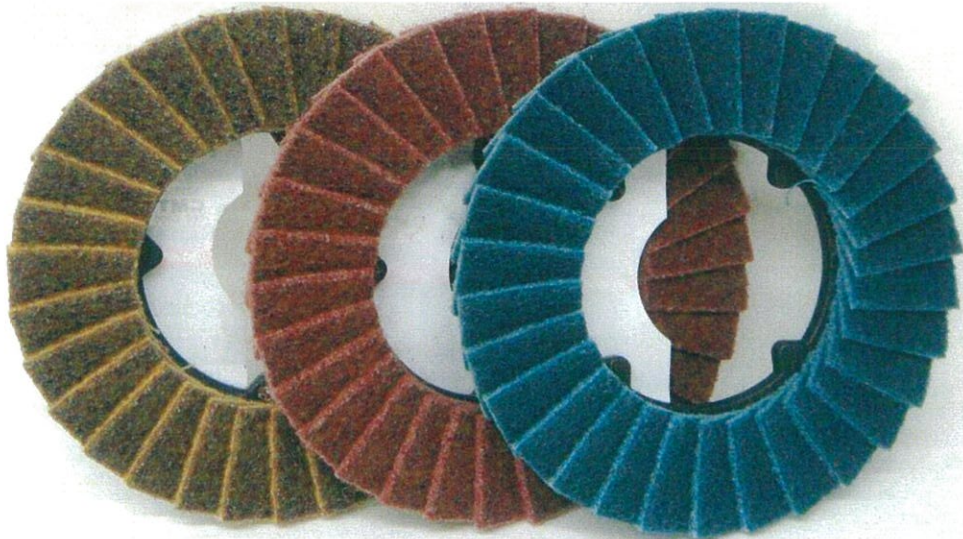

What's New

Klingspor Products

CMT800 FlapDisc

Klingspor have now released the CMT800 125 x 22 quick change flap discs in Surface Conditioning material. Now available in Coarse (Brown), Medium (Maroon), Fine (Blue), along with our current stock of SMT 726 125 x 22 40g 60g & 80g range. Now with a quick turn of the wrist you can grind and finish welds quickly and efficiently. Innovative and unique

NCW600 Combi Wheels

Our new range of Combi Flap Wheels have just landed. Size is 165 x 50 with a wooden centre. These wheels are a combination of Non/woven material with a mixture of abrasive cloth in between. Grits are 80g, 150g & 180g. For use on a straight end grinder or pedestal grinders. Idea for surface finishing on stainless steel .

CS409 Belts

Although CS409 Multibond Zircona belts are not new to us we have not only increased the belt sizes and grits, but also have had a significant price **reduction!** CS409 is ideal for grinding and sanding of metals in particular stainless steel. The Zirconia grain is self sharpening which allow for a constant and consistent finish. All the CS409 belts are multibonded coated, which allows for heat despiration and minimises friction, which in turn decreases the chances of blueing or warping the metal surface. These belts are on a heavy polyester back which has a high tear resistance. Overall – excellent belt

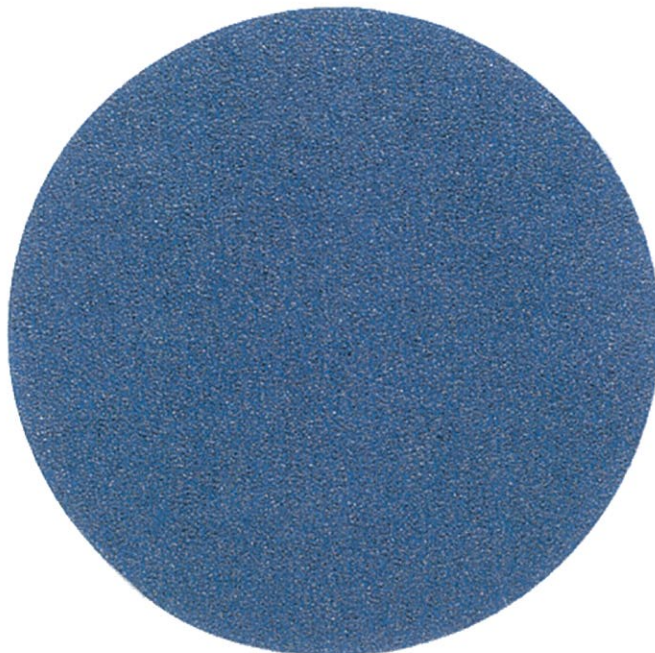

CS912 Belts

Ceramic grain belt for high stock removal of High alloy metals. High tear resistant polyester backing with self sharpening ceramic grain which has excellent long life. Available in 50 x 2745 40g 60g 80g & 120g. Other sizes available on request.

PS21K Trio Floor Disc

We now stock a range of Trio Discs for the floorsanders. The PS21K Velcro disc has self sharpening Zirconia grain for long life service. Ideal for all woods in particular hard woods. Worth a go !

Suhner Products

We have recently landed a shipment of the Satimax Flat bar & sheet polishers, (Barrell Wheel Polishers). A variable speed machine from 1900 Rpm to 4000 Rpm. Ergonomically designed. Excellent for processing large & long surface metal areas in minimal time. A range of various wheels are also available ex our stock, including Flap Wheels, Combi Wheels, Non Woven wheels. Also note the spindle can be screwed off and a tapered spindle can be attached for Mop polishing as well ! Packages are available on this product, so contact us or a deal!

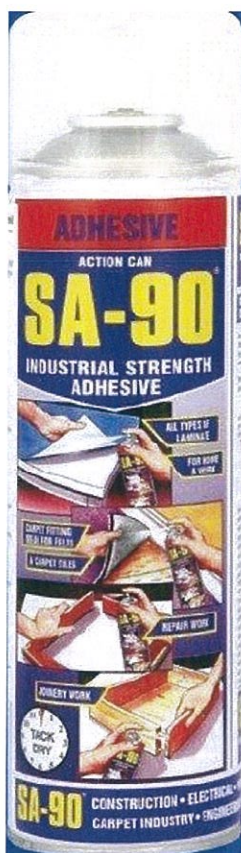

Floor Brush

A new floor brush 230mm long for applying Osmo products

SA-90 Industrial Adhesive

Big 500ml can. 3 Spraying volumes, high, medium and low. Adjustable nozzle direction. Fast tack dry. Many uses suitable for most surfaces. Ideal for the adhesion of sanding discs.

Deleting Products

Due to slow sale the below items will be deleted over the next few months. If you have any objections or queries please contact the office and discuss
